July 28, 2008

Dear Home Owner:

Beginning the week of August 11, 2008, work on resurfacing Hwy 11 will start. This work is being done by the State of Wisconsin. It is not a Village of Sturtevant project. During the project, traffic will be limited to two lanes (one lane of traffic going each direction). Work will begin with the two west bound (northside) lanes. On or about Labor Day, traffic work will switch from the west bound lanes to the two east bound (southside) lanes. You will receive a letter from the Wisconsin Department of Transportation with further details within the next week.

This work will impact your waste collection and access to your driveways throughout the project, which is scheduled to be completed by early October. We ask that you place your garbage cans and recyclables out the NIGHT BEFORE. You will need to wheel your garbage bin and carry your recyclables to the corner of the nearest side street. Veolia will pick it up at these locations. Veolia will not pick up your garbage if you put it out on Durand Avenue in the middle of the block. The garbage trucks will only pick up the garbage at the side streets. We further ask that you mark your containers and recycle tubs with your name or address in order to avoid confusion when retrieving them from the corner after pick up is completed.

The State of Wisconsin DOT project contractor will make every attempt to keep your driveway accessible to you throughout the project; but there will be times when access will be denied. The State of Wisconsin DOT contractor will coordinate these times with you in advance in order to avoid any confusion.

We apologize for any inconvenience this may cause you. We want to thank you in advance for your cooperation and assistance in this matter. Please direct your questions regarding garbage pick up to me at 262.886.2862, Mon – Fri, 7:30 AM – 3:00 PM. Refer to the DOT letter for contact information about the actual project.

Respectfully yours,

Charles R. Stachowski

Director of Public Works
Village of Sturtevant
